

# PENAIR<sup>®</sup> C5572

## Non-Solvent Exterior Aircraft Cleaner

### FEATURES/BENEFITS

No VOCs

Near neutral pH

Concentrated

Biodegradable

QPL to MIL-PRF-85570D

Type II

No solvent reporting  
requirements

Reduces fire hazards

Leaves a residue-free surface

Eliminates streaking

Non-corrosive to aerospace  
metals

*Penair C5572* is available in 6 gallon  
pails, 55 gallon drums, totes and bulk  
deliveries.

### Description

*Penair C5572* is a concentrated, environmentally safe, biodegradable, phosphate-free, non-solvent exterior aircraft cleaner. *Penair C5572* has a near neutral pH that reduces the skin irritation often associated with aircraft wash rack operations. The unique blend of surfactants in *Penair C5572* effectively reduces the surface tension of water and soil, allowing deposits to be easily rinsed from aircraft surfaces without streaking.

### Use Directions

Apply *Penair C5572* according to the soil level as listed below:

**Light Soils:** Mix 1 part *Penair C5572* in 14 parts water.

**Moderate Soils:** Mix 1 part *Penair C5572* in 9 parts water.

**Heavy Soils:** Mix 1 part *Penair C5572* in 4 parts water.

Apply *Penair C5572* with a foam generator (see NAVAIR 01-1A-509, Section 2), spray, sponge, brush or cloth. Scrub, then rinse with fresh water.

**Important:** *Penair C5572* is safe for use on all metals. It is also safe for use on acrylic and polycarbonate plastics. *Pretest before use to ensure compatibility.*

**IMPORTANT:** Before using *Penair C5572*, always be sure to read and follow warnings and directions for use appearing on the product container label, MSDS, and applicable current technical manual.
