Penair M5571 Wipe is available in pouches containing 25 wipes. There is a minimum order of 10 cases containing 12 pouches each.

Description

Penair M5571 Wipe is a ready to use heavy-duty, biodegradable, solvent-based exterior aircraft cleaner impregnated on a nonwoven sheet. It is suitable for use in cleaning and spot cleaning all painted and unpainted aircraft surfaces. *Penair M5571 Wipe* will eliminate streaking problems and improve aircraft appearance. *Penair M5571 Wipe* is effective at removing exhaust deposits, cleaning wheel wells and removing hydraulic fluid from wing flap areas.

Directions for Use

Remove one sheet of *Penair M5571 Wipe* from package and rub surface to be cleaned. Continue to wipe surface until soil is removed or sheet is dry. Repeat if necessary. Rinse thoroughly with fresh water or wipe dry.

Note

The information contained on this sheet is preliminary and is subject to change. Please contact Penetone for updated information, availability, and pricing.

IMPORTANT: Before using PENAIR M5571 Wipe, always be sure to read and follow warnings and directions for use appearing on the product container label, MSDS and applicable current technical manual. (Jul10)
